**We will apply with both
OHA & DEQ for
continuing education
units for drinking water
and wastewater operator
licenses.**

This virtual exercise and workshop will increase coordination and communication between water utilities, electric utilities, and the emergency services sector and advance the region's preparedness for a widespread power outage. The target audience is drinking water and wastewater utilities, electric utilities, and local, state, and federal government agencies.

This free event is hosted by the U.S. Environmental Protection Agency; City of Portland's Water, Emergency Management, Environmental Services, and Emergency Communications bureaus; City of Wilsonville and Tualatin Valley Water District Emergency Management Departments; the Regional Water Providers Consortium; Multnomah County; and Portland General Electric. Learn more and register for the exercise at:
